

TRAIL POST 3

CAUGHT YOU! Be sure you have your insect jar mat and items you can use as insects! Your Camp Counsleor will let you know how many insects are in your jar!

You caught a total of _____ insects in your jar.
Some of the insects were lightning bugs and some were moths. What combinations of insects could you have in your jar? Record your ideas using pictures, numbers and words.

TRAIL POST 3

Write a number model in the jars below to show the different ways you caught the bugs!

Are there more possibilities? How do you know?

What might happen if you caught two more or two less? What new combinations could you create? What patterns do you notice?
